SUMMARY

Motivated .NET Developer with over 2 years of experience building strong and reliable backend systems using C#, ASP.NET Core, and REST APIs. Skilled in debugging, testing, and improving software performance. Comfortable working with SQL databases, version control tools, and Agile teams. Focused on writing clean, secure, and well-documented code.

TECHNICAL SKILLS

Languages & Frameworks: C#, VB.NET, ASP.NET Core MVC, Web API, LINQ, T-SQL
Web Technologies: HTML5, CSS3, JavaScript, jQuery, JSON
Databases: MS SQL Server, MongoDB, Entity Framework
Tools: Visual Studio, Postman, Swagger, Git, Azure DevOps, MS Office
Concepts: Secure coding (SSL/TLS), Unit and System Testing, Agile, UAT

PROFESSIONAL EXPERIENCE

Awarious Technology Solutions   **Mar 2022 – Mar 2024**

- Built and maintained REST APIs for payroll, leave, timesheet, and location tracking features.
- Developed 15+ custom reports for attendance, salary, and company cost using T-SQL.
- Fixed bugs and tested code, reducing post-release issues by 30%.
- Worked closely with testers and other teams to fix UAT and production problems.
- Used Agile methods to deliver projects on time and stay flexible to changes.
- Helped with code reviews and made backend systems faster and more stable.
- Handled error logging and tracking to support smooth system performance.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering

- PSR Engineering College, Anna University – Chennai, India (Apr 2021)

PROJECT HIGHLIGHTS

OfficePortal® HRMS Backend

- Built backend modules for HR features like leave, payroll, and user management.
- Handled API connections, data validation, and logging.

CERTIFICATIONS & LEARNING

- .NET Core API Development (Hands-on GitHub Projects)
- Active on LeetCode for improving coding and problem-solving skills
